Job Market Paper

Global Financial Integration and Productivity: The Role of Risk Sharing
with Takaaki Sagawa

Abstract: This paper studies how integration into global capital markets affects aggregate productivity through risk sharing and capital allocation. We develop a small open economy model where heterogeneous capitalists choose between producing and investing. Foreign participation in domestic equity diversifies the country's aggregate risk and lowers the production hurdle rate. This raises investment and output but lowers aggregate TFP by drawing less productive capitalists into production. However, if capital account opening is accompanied by greater financing capacity, TFP rises as productive firms expand and displace marginal producers. We validate model predictions using emerging-market liberalizations in the 1980s and 1990s. Liberalizations were followed by equity price booms, more listings, and weaker TFP gains where booms were larger. The calibration shows that foreign participation alone lowers TFP and raises output temporarily, while liberalization with improved financing capacity raises both.

Fellowships and Awards

Doctoral Fellowship, Northwestern University 2021 – 2027
Research Travel Grant, Kellogg School of Management 2025
Full Scholarship, Tinbergen Institute 2017 – 2019
Top 2% of Graduates in Past Five Cohorts, Erasmus University Rotterdam 2017
FAECTOR Excellence Programme, Erasmus University Rotterdam 2016
RSM Excellence Scholarship, Erasmus University Rotterdam 2013

Research Experience

European Central Bank, Frankfurt 2025 – present
External Consultant (Contractor)

Northwestern University 2022 – 2026
Research Assistant for Profs. Efraim Benmelech, Nicolas Crouzet, and Zhengyang Jiang

Teaching Experience

Northwestern University
FINC-473 Macroeconomic Policy and Global Capital Markets
· EMBA and MBA for Prof. Nicolas Crouzet 2024 – 2025
· EMBA for Prof. Janice Eberly 2026

Tinbergen Institute
Advanced Mathematics (Prof. Florian Wagener) 2018

Erasmus University Rotterdam
Corporate Finance (Prof. Anjana Rajamani) 2015
Microeconomics (Prof. Benoit Crutzen) 2015
QM&T Mathematics (Prof. Leo Kroon) 2014

Pre-PhD Work Experience

ING Bank, Amsterdam 2019 – 2021
Quantitative Analyst

De Nederlandsche Bank (Dutch Central Bank), Amsterdam 2018 – 2019
Research Intern

Erasmus Q-Intelligence, Rotterdam 2016 – 2017
Research Assistant

Miscellaneous

Programming: MATLAB, R, Python, Stata, LaTeX
Languages: Chinese, English, Dutch
Music: Concertmaster, Rotterdam Student Orchestra (2017 – 2019)
